Dai, Gujie

Digital Media Designer

18gujie@gmail.com daigujie.com (+61)0477221651

EXPERTISE

My interests lie in web art, digital environments, multisensory experience, user research, the philosophical implications of emerging technologies, and shifting definitions of 'the Human' within the digital milieu.

I have a background in engineering and fine arts. My multi-disciplinary background informs my technically and theoretically adept performances, web-based conceptual interventions, and audio-visual works. I'm also a team player and a quick learner, with an open mind both for new people and things.

EDUCATION

2020 - 2022	**RMIT University**, Melbourne, Australia
	Bachelor of Design (Digital Media) with Distinction
2015 - 2019	**Qilu University of Technology**, Jinan, China
	Bachelor of Engineering (Packaging)

WORK EXPERIENCE

Web Developer & Multimedia Artist (2022)

@Playablestreets (Northcote, Melbourne)

Playable Streets engage and re-connect communities through collaborative art in public spaces, at home, and online. I'm a team member in the Kidstruments project, and responsible for developing its website using HTML5, CSS, and JavaScript. I participated in refining the visual design, sound design as well. This position demonstrates my multimedia professional skills and my abilities to work creatively and collaboratively with a team.

Videographer & Post-production (2021)

@DG Media (St Kilda, Melbourne)

The studio dedicated to help local businesses to promote their brands and grow their businesses online. My responsibilities are creating and editing video content for platforms such as TikTok. This role shows my abilities of creating moving images, self-learning skills, and having UX mindsets for the clients.

Kitchen Staff (2020-2022)

@EJ's Café (RMIT, Melbourne)

Responsible for the breakfast section, working in a fast-paced environment, that means I'm able to deal with various situations and customers and work under strong pressure. This role showcases my time management and communication skills.

Packaging Testing Experiments Recorder (2019)

@National Inspection and Testing Center for Packaging Product (Jinan City)

Work as a laboratory assistant, responsible for recording packages' testing results. The task requires caring eyes for details and good documentation management skills.
